The Double Ended Suite Skid House is similar to a duplex with a studio apartment on either side. Designed to sleep up to four people with a bunk bed in each bedroom, the skid house is also capable of being pared down to two people with the bunks removed. This setup provides the maximum amount of privacy as inhabitants share only a common front door and laundry facilities. The Double Ended Suite also provides workspace with a countertop and drawers to accommodate a work station on each side.

Designed for Harsh Environments

- Built for sub-zero temperatures - the skid design includes insulation and thicker flooring material for operation in cold weather environments.
- Designed with features to prevent freezing and to maximize comfort.

Engineered to meet Local Codes

- Skid Houses are built to International Building Codes (IBC) based on date of manufacture.
- HB Rentals Skid Houses can be built for compliances with various local, national, and international codes such as IMC, IFGC, UPC, NEC, IECC and others.
- "Blue Seal" compliant - Majority of skid houses are built to be compliant with the Colorado Division of Housing (CDOH).

Designed for Employee Safety

- Entry steps with safety handrails mitigate risk of injury.
- Designed with fire safety in mind - fire extinguishers are standard on all skid houses.

Designed for Employee Safety (Cont.)

- All skid houses come equipped with smoke detectors with battery back up and escape doors and/or windows.
- Equipped with exterior lighting for aid in low light navigation.

Customize to Your Site Needs
